
We Oppose the "Reproductive Health & Privacy Protection Act"

The extreme provisions of this bill intended to "enshrine the protections of *Roe v Wade* in New York State law" actually go far beyond Roe v Wade. If enacted this bill would, among other things, ensure that abortions are legal throughout all nine months of pregnancy, allow post-viability abortions to be performed on an out-patient basis in clinics, allow non-physicians to perform abortions, and could eliminate conscience protection of religious hospitals which refuse to perform abortions. For the sake of pregnant women and their unborn children we urge our legislators to oppose this bill.
